

AN AGREEMENT BETWEEN:

**Secretary, NSW Health**

AND THE

**South Western Sydney  
Local Health District**

FOR THE PERIOD  
1 July 2018 – 30 June 2019

# NSW Health Service Agreement – 2018/19

## Principal Purpose

The principal purpose of the Service Agreement is to set out the service and performance expectations for the funding and other support provided to South Western Sydney Local Health District (the Organisation), to ensure the provision of equitable, safe, high quality, patient-centred healthcare services.

The Agreement articulates direction, responsibility and accountability across the NSW Health system for the delivery of NSW Government and NSW Health priorities. Additionally, it specifies the service delivery and performance requirements expected of the Organisation that will be monitored in line with the NSW Health Performance Framework.

Through execution of the Agreement, the Secretary agrees to provide the funding and other support to the Organisation as outlined in this Service Agreement.

## 1. Objectives of the Service Agreement

- To articulate responsibilities and accountabilities across all NSW Health entities for the delivery of the priorities of the NSW Government and NSW Health.
- To establish with Districts and Networks a performance management and accountability system for the delivery of high quality, effective health care services that promote, protect and maintain the health of the community, and provide care and treatment to sick and injured people, taking into account the particular needs of their diverse communities.
- To develop effective partnerships with Aboriginal Community Controlled Health Services and ensure the health needs of Aboriginal people are considered in all health plans and programs developed by Districts and Networks.
- To promote accountability to Government and the community for service delivery and funding.

## 2. CORE Values

Achieving the goals, directions and strategies for NSW Health requires clear and co-ordinated prioritisation of work programs, and supportive leadership that exemplifies the CORE Values of NSW Health:

- **C**ollaboration – we are committed to working collaboratively with each other to achieve the best possible outcomes for our patients who are at the centre of everything we do. In working collaboratively we acknowledge that every person working in the health system plays a valuable role that contributes to achieving the best possible outcomes.
- **O**penness – a commitment to openness in our communications builds confidence and greater cooperation. We are committed to encouraging our patients, and all people who work in the health system, to provide feedback that will help us provide better services.
- **R**espect – we have respect for the abilities, knowledge, skills and achievements of all people who work in the health system. We are also committed to providing health services that acknowledge and respect the feelings, wishes and rights of our patients and their carers.
- **E**mpowerment – in providing quality health care services we aim to ensure our patients are able to make well informed and confident decisions about their care and treatment. We further aim to create a sense of empowerment in the workplace for people to use their knowledge, skills and experience to provide the best possible care to patients, their families and carers.

## 3. Culture, Community and Workforce Engagement

Districts and Networks are to ensure appropriate consultation and engagement with patients, carers and communities in relation to the design and delivery of health services. Impact Statements are to be considered and, where relevant, incorporated into health policies.

Consistent with the principles of accountability and stakeholder consultation, the engagement of clinical staff in key decisions, such as resource allocation and service planning, is crucial to the achievement of local priorities.

## Engagement Surveys

- The People Matter Employee Survey measures the experiences of individuals across the NSW Health system in working with their team, managers and the organisation. The results of the survey will be used to identify areas of both best practice and improvement opportunities, to determine how change can be affected at an individual, organisational and system level to improve workplace culture and practices.
- The Junior Medical Officer Your Training and Wellbeing Matters Survey will monitor the quality of supervision, education and training provided to junior medical officers and their welfare and wellbeing. The survey will also identify areas of best practice and further opportunities for improvement at an organisational and system level.
- The Australian Medical Association, in conjunction with the Australian Salaried Medical Officers Association, will be undertaking regular surveys of senior medical staff to assess clinical participation and involvement in local decision making to deliver patient centred care.

## 4. Legislation, Governance and Performance Framework

### 4.1 Legislation

The Health Services Act 1997 (the Act) provides a legislative framework for the public health system, including setting out purposes and/or functions in relation to Local Health Districts (ss 8, 9, 10).

Under the Act the Health Secretary's functions include: the facilitation of the achievement and maintenance of adequate standards of patient care within public hospitals, provision of governance, oversight and control of the public health system and the statutory health organisations within it, as well as in relation to other services provided by the public health system, and to facilitate the efficient and economic operation of the public health system (s.122).

The Act allows the Health Secretary to enter into performance agreements with Local Health Districts in relation to the provision of health services and health support services (s.126). The performance agreement may include provisions of a service agreement.

Under the Act the Minister may attach conditions to the payment of any subsidy (or part of any subsidy) (s.127). As a condition of subsidy all funding provided for specific purposes must be used for those purposes unless approved by the Health Secretary.

### 4.2 Variation of the Agreement

The Agreement may be amended at any time by agreement in writing between the Organisation and the Ministry.

The Agreement may also be varied by the Secretary or the Minister in exercise of their general powers under the Act, including determination of the role, functions and activities of Local Health Districts (s. 32).

Any updates to finance or activity information further to the original contents of the Agreement will be provided through separate documents that may be issued by the Ministry in the course of the year.

### **4.3 National Agreement - Hospital funding and health reform**

The Council of Australian Governments (COAG) has reaffirmed that providing universal health care for all Australians is a shared priority and agreed in a Heads of Agreement for public hospitals funding from 1 July 2017 to 30 June 2020. That Agreement preserves important parts of the existing system, including activity based funding and the national efficient price. There is a focus on actions to improve patient safety and the quality of services and reduce unnecessary hospitalisations. The Commonwealth will continue its focus on reforms in primary care that are designed to improve patient outcomes and reduce avoidable hospital admissions. See <http://www.coag.gov.au/agreements>

### **4.4 Governance**

Each Health Service and Support Organisation must ensure that all applicable duties, obligations and accountabilities are understood and complied with, and that services are provided in a manner consistent with all NSW Health policies, procedures plans, circulars, inter-agency agreements, Ministerial directives and other instruments and statutory obligations.

Districts and Networks are to ensure

- Timely implementation of Coroner's findings and recommendations, as well as recommendations of Root Cause Analyses.
- Active participation in state-wide reviews.

#### **4.4.1 Clinical Governance**

NSW public health services are accredited against the National Safety and Quality Health Service Standards.

<https://www.safetyandquality.gov.au/our-work/assessment-to-the-nsqhs-standards/nsqhs-standards-second-edition/>

The Australian Safety and Quality Framework for Health Care provides a set of guiding principles that can assist Health Services with their clinical governance obligations. See <http://www.safetyandquality.gov.au/wp-content/uploads/2012/04/Australian-SandQ-Framework1.pdf>

The NSW Patient Safety and Clinical Quality Program provides an important framework for improvements to clinical quality.

[http://www1.health.nsw.gov.au/pds/ActivePDSDocuments/PD2005\\_608.pdf](http://www1.health.nsw.gov.au/pds/ActivePDSDocuments/PD2005_608.pdf)

#### **4.4.2 Corporate Governance**

Each Health Service and Support Organisation must ensure services are delivered in a manner consistent with the NSW Health Corporate Governance and Accountability Compendium (the Compendium) seven corporate governance standards. The Compendium is at: <http://www.health.nsw.gov.au/policies/manuals/pages/corporate-governance-compendium.aspx>

Where applicable, they are to:

- Provide required reports in accordance with the timeframes advised by the Ministry;
- Review and update Manual of Delegations (PD2012\_059) to ensure currency;
- Ensure NSW Auditor-General's, the Public Accounts Committee and the NSW Ombudsman's recommendations where accepted by NSW Health are actioned in a timely and effective manner, and that repeat audit issues are avoided.

#### **4.4.3 Safety and Quality Accounts**

Standard 1, Clinical Governance, of the National Safety and Quality Health Service Standards describes the clinical governance, and safety and quality systems that are required to maintain and improve the reliability, safety and quality of health care, and improve health outcomes for patients. Standard 1 ensures that everyone – from frontline clinicians to managers and members of governing bodies, such as boards – are accountable to patients and the community for assuring the delivery of health services that are safe, effective, integrated, high quality and continuously improving.

Districts and Networks complete Safety and Quality Accounts to document achievements, and affirm an ongoing commitment to improving and integrating safety and quality into their functions. The Account provides information about the safety and quality of care delivered by the Organisation, including key state-wide mandatory and locally selected high priority measures, patient safety priorities, service improvements and integration initiatives. The Account must also demonstrate how the Organisation meets Standard 1.

Consistent with the National Agreement, Districts and Networks must continue to focus on reducing the incidence of Hospital Acquired Complications. Through the Purchasing Framework, NSW Health has incentivised Districts and Networks to locally invest in quality improvement initiatives to specifically target these complications. It is expected that the Safety and Quality account articulates the incentivised initiative/s, and provides details on the approach and outcomes.

#### **4.4.4 Performance Framework**

Service Agreements are central components of the NSW Health Performance Framework, which documents how the Ministry monitors and assesses the performance of public sector health services to achieve the expected service levels, financial performance, governance and other requirements.

The performance of a Health Service is assessed in terms of whether the organisation is meeting the strategic objectives for NSW Health and Government, the Premier's priorities, the availability and implementation of governance structures and processes, performance against targets and whether there has been a significant critical incident or sentinel event.

The Framework also sets out the performance improvement approaches, responses to performance concerns and management processes that support achievement of these outcomes in accordance with NSW Health and Government policy and priorities.

Performance concerns will be raised with the Organisation for focused discussion at performance review meetings in line with the NSW Health Performance Framework available at:

<http://www.health.nsw.gov.au/Performance/Pages/frameworks.aspx>

## **Schedule A: Strategies and Priorities**

NSW Health Strategies and Priorities are to be reflected in the strategic, operational and business plans of the Ministry and NSW Health Services and Support Organisations. Delivery of the Strategies and Priorities is the mutual responsibility of all entities.

### **NSW: Making it Happen**

NSW: Making it Happen outlines NSW Health's State Priorities, including 12 Premier's Priorities that together define the NSW Government's vision for a stronger, healthier and safer NSW. As delivery of both Premier's and State priorities is the responsibility of all NSW Government Agencies, all entities work together to ensure successful delivery, in both lead and partnering agency capacities.

### **Election Commitments**

NSW Health is responsible for the delivery of 102 election commitments over the period to March 2019. The Ministry of Health will lead the delivery of these commitments with support from Health Services and Support Organisations – see also [http://nswtreasury.prod.acquia-sites.com/sites/default/files/pdf/2015-2016\\_Budget\\_Papers\\_-\\_Election\\_Commitments\\_2015-19.pdf](http://nswtreasury.prod.acquia-sites.com/sites/default/files/pdf/2015-2016_Budget_Papers_-_Election_Commitments_2015-19.pdf)

### **Minister's Priority**

NSW Health will strive for engagement, empathy and excellence to promote a positive and compassionate culture that is shared by managers, front-line clinical and support staff alike. This culture will ensure the delivery of safe, appropriate, high quality care for our patients and communities. To do this, Health Services are to continue to effectively engage with the community, and ensure that managers at all levels are visible and working collaboratively with staff, patients and carers within their organisation, service or unit. These requirements will form a critical element of the Safety and Quality Account.

## Our Contribution to the 30 NSW Priorities

NSW Health is contributing directly to 10 of the 30 NSW Priorities: 4 State Priorities and 6 Premier's Priorities

### STATE PRIORITIES

Reduce overweight and obesity rates of children by 5% over 10 years

#### KEY

NSW Health leads these NSW Premier's and State Priorities

## **NSW State Health Plan: Towards 2021**

The NSW State Health Plan: Towards 2021 provides a strategic framework which brings together NSW Health's existing plans, programs and policies and sets priorities across the system for the delivery of the right care, in the right place, at the right time. See

<http://www.health.nsw.gov.au/statehealthplan/Publications/NSW-state-health-plan-towards-2021.pdf>

## **NSW Health Strategic Priorities 2018-19**

The NSW Health Strategic Priorities 2018-19 builds on and complements the NSW State Health Plan: Towards 2021 and aligns with the NSW State and Premier's Priorities. The approach outlined in the plan frames the Ministry's role as system manager for NSW Health, strengthens system governance and establishes a strategic planning framework that:

- Embeds a new cross-functional approach to strategic planning and delivery in the Ministry including tighter direction and leadership;
- Allows a flexibility about how we go about achieving this in order to encourage innovation and continuous improvement; and
- Applies tight ownership around the deliverables which will enable transparency in monitoring results.

This will provide the system and stakeholders with an overview of system priorities, and transparency and clarity on where strategic effort will be focused each year, while also delivering business as usual.

## Local Priorities

Under the Health Services Act 1997, Boards have the function of ensuring that strategic plans to guide the delivery of services are developed for the District or Network and for approving these plans. Local Health Districts and Specialty Health Networks are responsible for developing the following Plans with Board oversight:

- Strategic Plan
- Clinical Services Plans
- Safety and Quality Account and subsequent Safety and Quality Plan
- Workforce Plan
- Corporate Governance Plan
- Asset Strategic Plan

It is recognised that each District and Network will implement local priorities to deliver the NSW Government and NSW Health priorities, and meet the needs of their respective populations.

The District's local priorities for 2018/19 are as follows:

- Diabetes Services
- Weight Management for Children
- Paediatric Services
- Interventional Neuro Radiology
- Procedural Services at Campbelltown and Bankstown
- Integrated Care
- Intensive Care
- Neonatal Intensive Care

## Schedule B: Services and Networks

### Services

The Organisation is to maintain up to date information for the public on its website regarding its relevant facilities and services including population health, inpatient services, community health, other non-inpatient services and multipurpose services (where applicable), in accordance with approved Role Delineation levels.

The Organisation is also to maintain up to date details of:

- Affiliated Health Organisations (AHOs) in receipt of Subsidies in respect of services recognised under Schedule 3 of the Health Services Act 1997. Note that annual Service Agreements are to be in place between the Organisation and AHOs.
- Non-Government Organisations (NGOs) for which the Commissioning Agency is the Organisation, noting that NGOs for which the Commissioning Agency is the NSW Ministry of Health are included in NSW Health Annual Reports.
- Primary Health Networks with which the Organisation has a relationship.

### Networks and Services Provided to Other Organisations

Each NSW Health service is a part of integrated networks of clinical services that aim to ensure timely access to appropriate care for all eligible patients. The Organisation must ensure effective contribution, where applicable, to the operation of statewide and local networks of retrieval, specialty service transfer and inter-district networked specialty clinical services.

### Key Clinical Services Provided to Other Health Services

The Organisation is also to ensure continued provision of access by other Districts and Health Services, as set out in the table below. The respective responsibilities should be incorporated in formal service agreements between the parties.

Service	Recipient Health Service
Genetic Counselling and Outreach Services	Murrumbidgee LHD, Southern NSW LHD
Cancer Genetics	The arrangement with SLHD has ceased. Murrumbidgee LHD, Southern NSW LHD

Note that New South Wales prisoners are entitled to free inpatient and non-inpatient services in NSW public hospitals (PD2016\_024 – Health Services Act 1997 - Scale of Fees for Hospital and Other Services, or as updated).

### Non-clinical Services and Other Functions Provided to Other Health Services

Where the Organisation has the lead or joint lead role, continued provision to other Districts and Health Services is to be ensured as follows.

Service or function	Recipient Health Service
NSW Refugee Health Service	Statewide Service
Office of Preventive Health	Statewide Service

## Cross District Referral Networks

Districts and Networks are part of a referral network with other relevant Services, and must ensure the continued effective operation of these networks, especially the following:

- Critical Care Tertiary Referral Networks and Transfer of Care (Adults) - (PD2018\_011)
- Interfacility Transfer Process for Adult Patients Requiring Specialist Care - (PD2011\_031)
- Critical Care Tertiary Referral Networks (Paediatrics) - (PD2010\_030)
- Tiered Network Arrangements for Maternity and Neonatal Care in NSW
- NSW Acute Spinal Cord Injury Referral Network - (PD2010\_021)
- NSW Trauma Services Networks (Adults and Paediatrics) - (PD2010\_021)
- Children and Adolescents - Inter-Facility Transfers –(PD2010\_031)

Roles and responsibilities for Mental Health Intensive Care Units (MHICU), including standardisation of referral and clinical handover procedures and pathways, the role of the primary referral centre in securing a MHICU bed, and the standardisation of escalation processes will be a key focus for NSW Health in 2018/19.

## Supra LHD Services

The following information is included in all Service Agreements to provide an overview of recognised Supra LHD Services and Nationally Funded Centres in NSW. Supra LHD Services are provided across District/Network boundaries and are characterised by a combination of the following factors:

- Services are provided from limited sites across NSW;
- Services are high cost with low-volume activity;
- Individual clinicians or teams in Supra LHD services have specialised skills;
- Provision of the service is dependent on highly specialised equipment and/or support services;
- Significant investment in infrastructure is required;
- Services are provided on behalf of the State; that is, a significant proportion of service users are from outside the host District's/Network's catchment
- Ensuring equitable access to Supra LHD Services will be a key focus. Supra LHD locations and service levels are as follows:

Supra LHD Service	Measurement Unit	Locations	Service Requirement

## Schedule E: Performance against Strategies and Objectives

### A. Key Performance Indicators

The performance of Districts, Networks, other Health Services and Support Organisations is assessed in terms of whether it is meeting performance targets for individual key performance indicators for each NSW Health Strategic Priority.

✓	Performing	Performance at, or better than, target
↘	Underperforming	Performance within a tolerance range
✗	Not performing	Performance outside the tolerance threshold

Detailed specifications for the key performance indicators are provided in the Service Agreement Data Supplement along with the list of improvement measures that will continue to be tracked by the Ministry's Business Owners - see

[http://hird.health.nsw.gov.au/hird/view\\_data\\_resource\\_description.cfm?ItemID=22508](http://hird.health.nsw.gov.au/hird/view_data_resource_description.cfm?ItemID=22508)

The Data Supplement also maps indicators and measures to key strategic programs including

- Premier's and State Priorities
- Election Commitments
- Better Value Care
- Patient Safety First
- Mental Health Reform
- Financial Management Transformations

### B. Strategic Deliverables

Key deliverables under the NSW Health Strategic Priorities 2018-19 will also be monitored, noting that process key performance indicators and milestones are held in the detailed Operational Plans developed by each Health Service and Support Organisation.

## B. Strategic Deliverables

### Leading Better Value Care

The Leading Better Value Care (LBVC) Program creates shared priorities across the NSW health system to improve health outcomes, improve the experience of care for patients, carers and clinicians and provide efficient and effective care. The main components of this approach include the following:

- The Ministry of Health will continue as system administrator, purchaser and manager and will articulate the priorities for NSW Health. Performance against delivery of the priorities will be monitored in line with the NSW Health Performance Framework.
- Districts and Networks will continue to provide services established through LBVC in 2017-18 and determine local approaches to deliver new LBVC initiatives in 2018-19.
- The Pillars, as required, will continue to support Districts and Networks in a flexible manner that can be customised to meet local needs and will support measurement as required.
- Districts and Networks will participate with Pillars in evaluation, monitoring and regular reporting on the progress of the LBVC initiatives as specified in the Monitoring and Evaluation Plans.

In 2018/19, Districts and Networks will:

- Continue to provide clinical services in the most appropriate care setting for patients in LBVC Tranche One (T1) initiatives of Osteoporotic Refracture Prevention (ORP), Osteoarthritis Chronic Care Program (OACCP), Renal Supportive Care (RSC) and High Risk Foot Services (HRFS) through designated HERO clinics.
- Implement the LBVC solutions for Chronic Heart Failure (CHF), Chronic Obstructive Pulmonary Disease (COPD) and Diabetes.
- Continue to undertake and report on the agreed solutions to reduce falls in hospital.
- Participate in monitoring, evaluation and other studies (e.g. costing) of LBVC initiatives. Formative evaluations will occur throughout 2018-19 in consultation with the Districts and other stakeholders.
- Undertake regular reviews of activity associated with all T1 initiatives.
- Work with the Ministry of Health and lead Pillar agencies to participate in data gathering and other activities to support the development and implementation of LBVC Tranche 2 (T2) initiatives for:
  - Bronchiolitis.
  - Hip Fracture.
  - Cancer care (optimal care pathways for colorectal cancer, hypofractionation).
  - Wound Management.
