

Gradstart and Midstart Program

Bowral & District Hospital

In 1889, Berrima District Cottage Hospital opened with six beds and over the years the hospital increased in size and expanded its services. In 1968, the name changed to Bowral & District Hospital and it has grown into a major rural hospital servicing the southern highlands. It is the only hospital in our District that is located outside of Sydney.

Bowral & District Hospital is a medium-sized vibrant hospital in the beautiful Southern Highlands, close to Sydney, Canberra and Wollongong. The hospital provides a wide range of services to the community including critical care, emergency care, general medical, surgical, orthopaedics, palliative care, obstetrics and gynaecology, paediatric, cardiac rehabilitation and geriatric care. Bowral & District Hospital is committed to working with the community to ensure that changing health needs are recognised and considered in all clinical services planning and delivery.
